

FOR HVAC, HEALTHCARE, SCHOOL AND GOVERNMENT CUSTOMERS

NO-COST AUDIT SERVICES

**PURO Will Determine How UV-C Disinfection
Can Help Save Energy, Money and Maintenance
While Improving Air Quality**

PURO is excited to offer customers free audits of their HVAC systems to best determine how UV-C disinfection can save you energy, maintenance, and improve indoor air quality within your facilities.

Highlights of the free audit are:

- Our mechanical engineers will visit your facilities and provide detailed information for each building's air handling units.
- Analysis of your HVAC systems include grading filters, fan motors, condensation pans, dust cleanliness and coil cavities.
- PURO will create a custom UV disinfection plan that will show you how PURO products can best serve your air quality needs throughout all of your facilities.
- The audit will take 10-15 minutes per AHU.
- Our auditors will require access to electrical panels and AHUs for inspection. Facility personnel will need to be available.

Fighter Flex System

PURO's completely customizable and easy-to-install UV-C kit for any size HVAC system.

PURONet UV Disinfection Control System

The cloud-based data collection, safety and reporting system that easily connects to your building's automation platforms.
