## UV Disinfection Solutions for Healthcare

**PURONet**

**Fighter**

**Helo F1/F2**

**Aurora**

# PURO Lighting products use proven UV light technology to inactivate viruses, bacteria and other HAIs up to 99.9%

Operating rooms and hospitals, clinics, medical offices, urgent care facilities and more depend on PUROHealth to bring them customized and proven UV solutions that protect patients, staff and visitors throughout their facilities.

## The PURO Lighting Difference

Understanding the specific disinfection needs of medical facilities, PUROHealth was created to bring the right UV disinfection solutions to every segment of the healthcare market. We offer a wide variety of UV technologies for both continuous air, and air and surface disinfection. From UV-C Mercury Vapor technology to high-intensity, full-spectrum UV-A, B and C pulsed-Xenon products powered by Violet Defense® technology, PURO will help you determine the best approach to reach your disinfection goals in every area of your facility.

## 360° Customer Success Program

The purchase of a PURO UV Disinfection Lighting product doesn't end with your delivery. It's part of an integrated program designed to help you get the best disinfection results possible now and in the future.

### Program Includes

- PURO Set Up Service
- Ongoing and On-Demand Technical Support
- Extended Warranty
- Customized Marketing Assistance Program
- Turnkey Installation

## UV Disinfection Solutions for Healthcare

See how PURO products can disinfect  
and protect all parts of your medical facility

### Fighter

Modular Germicidal UV-C Kit.  
Expandable and Customizable.

Specifically designed to disinfect the air and coils within an HVAC system. Our modular germicidal UV-C kit works with fan coils, air handling units, unit ventilators, PTAC units, and compact AC units.

### Whisper

Compact UV-C Air Purifier

Provides super-quiet, super-powerful disinfection as it continuously reduces airborne pathogens in occupied spaces by using UV technology to inactivate germs and keep the circulating air pathogen-free up to 99.9%. Perfect for smaller waiting rooms and exam rooms.

### Defender

Germicidal UV-C Disinfection  
for HVAC Duct Integration

Small, powerful and easy to integrate into existing air ducts or final section of an AHU. Disinfects air flowing through system to inactivate viruses, bacteria, molds and spores by creating UVGI barrier inhibiting pathogens inside air unit.

### Helo

High Intensity pulsed-Xenon UV light  
technology for use in Air Handling Units

Powered by Violet Defense<sup>®</sup> technology, broad-spectrum Helo uses UV-A, B and C light to inactivate viruses, bacteria, mold and fungi\* on air handling coils.

### Aurora

In-room UV-C Air Purifier

Aurora provides continuous and powerful disinfection of air to reduce airborne pathogens in occupied spaces. The high-performance yet quiet Aurora uses ozone-free UV-C lamps that last up to 18,000-hours. Available in both easy to install wall-mounted or fast deployment mobile version.

### PURONet

UV Disinfection Control System

An essential tool for hospitals, healthcare facilities and more, PURONet provides an additional level of safety, real-time operational reporting and data collection to your PURO UV disinfection program.

\*SARS-CoV-2, E. coli, Norovirus, MRSA, C. auris and C. diff

# PURO UV Disinfection Lighting Products

FIGURE	DESCRIPTION	DISINFECTS	LOCATION	UV SPECTRUM	IDEAL FOR
	Modular germicidal UV-C Kit	HVAC coils and air in HVAC systems	Installed near HVAC coils	UV-C 254 nm	Air handling units, coil, surface and air disinfection
	In-room UV-C air purifier	Continuous air disinfection	Wall mounted or mobile in rooms	UV-C 254 nm	Waiting and Exam/ Procedure/Radiology Rooms
	Compact UV-C air purifier	Continuous air disinfection	Wall mounted in rooms and spaces	UV-C 254 nm	Bathrooms, exam and waiting rooms
	Simple, small, easy to retrofit	Air in HVAC systems	Installed in HVAC air duct	UV-C 254 nm	High disinfection rates (up to 99.9%) in HVAC systems
	Broad spectrum, high intensity	HVAC coils	Installed near HVAC coils	UV-A, UV-B, UV-C	Programmable disinfection of coils
	UV Disinfection Control System	Adds safety, reporting and data collection	In operating rooms and other procedure rooms	Controls full-spectrum UV A, B & C Helo units	Spaces using full-spectrum UV disinfection
